How to Earn a Six Figure Income in Real Estate

Hello,

Become a partner with EZ Real Estate Biz. This company is the originator of the system of buying and selling homes called the Owner Financing Program. And now our latest method called the "Rent-Own Properties Worldwide".

I'm about to show you how to make big profits in the Real Estate Field by using our unique home buying and selling techniques in your community. These techniques are simple and they really do work. We have created a new niche in the Note Industry that is exploding with opportunity. This is an entrepreneur business.

No License or Special Background Required

In using our EZ Real Estate Biz Partnership and the EZ Real Estate Biz Affiliate Program techniques, you are not required to have a Real Estate License or a Mortgage Brokers license. In fact, our technique can be a great help to the real estate professionals in your area. Many agents and brokers have already joined us to help grow their business; but most have joined because they saw the opportunity to make 10-20% profits instead of the small 1-6% they have been conditioned to accept in their traditional roles. Our techniques can be used by almost anyone who wants to get into the Real Estate Investing Field. You don't need experience, surplus of money to invest, or credit to use in the real estate business. You never have to qualify for anything (the buyer will do that part). You just get into the flip man transaction and bingo!! You get paid!!! It works fast globally now.

EZ Real Estate Biz Announces the "Real Estate Purchase" –a home selling/buying technique used exclusively by our trained Associates for over 24 years who can sell a home and generate **all cash** at closing. This **cash** is used to pay the homeowner at transaction's end. EZ Real Estate Biz is an Investors real estate way of investing in a home transaction. Our company money sources have unlimited amounts to buy notes and you earn big profits on each closing. In addition to company money source, we will introduce you to other sources nationwide. This will enable you access to an unending avenue of permanent funding global. We teach you how to adapt regular Mortgage Lenders into your own personal source EZ Real Estate Biz.

The EZ Real Estate Biz Training System is Designed to:

- Find buyers quickly and get them into a home of their choice
- Allow you to buy and sell homes without having to use your own money or credit to flip houses, commercial property and land deals
- Generate large profits for yourself on each transaction worldwide
- Complete transactions with the minimum of time, travel, or expense.

Simple Techniques

We have developed a new note creation technique. You can earn very large profits from the average home sale and commercial properties worldwide. When you buy a home at one price and sell at a higher price, you earn a profit equal to the difference. We give you a complete system for doing just that. You won't even have to negotiate with the seller; we have a flat offer and counter offer method that takes all the negotiation and game playing out of the process. Everything is completely scripted, so you just have to learn a simple script that takes about 5 minutes to deliver paper documents. Simply make one offer and if that is turned down or countered, you simply make the next offer. The seller will accept it most of the time (if not, we move to the next home on the list). The buyer will bring you a small list of homes from which you begin to make offers on, all by phone or fax. You simply make offers down the list until you have an acceptance. That home then becomes the home you will close on. There are no difficult negotiations or other expense; you never come out your pocket with any earnest money or other typical costs by using company money. These offers and agreements are then turned into the Title Company for closing. We take care of everything else. If using other global funding sources, they will close the transaction for you.

While the process is simple, it does take a person that is not afraid to talk to sellers or buyers over the phone. In fact, most of your work is done in the comfort of your own home. There is no office or rent to maintain. Everyone becomes a professional in your area and through us www.EzRealEstateBiz.com

After completing the EZ Real Estate Biz training course, you obtain the designation of CFCS (Certified Seller Finance Specialist) Worldwide Enterprise.

You are also given your first year's membership in NAMI (National Association of Mortgage Investors). It is an 8-year old association with one of the largest memberships of Mortgage Investors nationwide. Your membership in NAMI allows you to use their official Logo which you can display on business cards and stationary, website etc, nationwide business now.

You Become The Flip Man

98% of the population can't qualify for a home loan, they need you if they ever expect own a home instead of continuing to rent. This puts you into the profitable position of being the **FLIP MAN**. The person with the money that can bring all the parties to agreement and close the sale. They can't close without you in the picture, using company money in real business.

Since you can put so much money on the table at closing, finding a seller that will sell you their home is never a problem. Sellers will jump at your offers. Using our techniques, you can make an almost full asking price offer that most **owners can't turn down**. How many could turn down an offer at 10 to 5% below their asking price ? On a pretty house industry nationwide.

We have a unique approach to finding a buyer, finding a home the buyer likes, and controlling the transaction so that you get paid at closing directly from the Title Company or Closing Attorney. Once the transaction closes, the seller's existing mortgage will be paid off and they get their equity in cash at closing. If you bought their home at \$300,000, then sold it for \$400,000, you will have made \$100,000 in cash profit, Work Worldwide.

The Problem: Most homes are sold only to one small segment of the population, the “A” Credit Market. This market is very small, only a small percentage of the population will qualify for a standard Mortgage Loan. People who can’t qualify for a loan must rent, in essence, “throwing away their money”. That money really goes to pay the loan payment for their landlord. It makes no sense for renters to pay off their landlord’s mortgage. The problem is that many Americans can’t qualify for a home mortgage due to credit, income, or stability. It takes 7 years for bad credit to roll off their credit report. While they may have a good job and stable income, pay their bills on time, they still have a negative credit report and history that prevents most mortgage company from approving a loan. Use seller financing now.

The solution: these buyers need your assistance through www.EzRealEstateBiz.com in order to purchase their dream home. We work with buyers with problem credit, very low down payments, low income, and those that have been turned down by Mortgage Companies. You help buyers who are in need of seller financing and arrange through us or our sources to fund the transaction. At closing the seller is paid their equity, their mortgage is paid off, the buyer owns the home, and you earn the profit, it Work all states. Try rent to own lease option real estate transactions.

Let’s look at an example:

We determine a buyer can qualify for a \$400,000 home. The buyer then looks at several homes through a local real estate agent that fit the basic desires and price range for the buyer. You then contract to purchase the home for cash. In addition you contract to sell the home to the buyer at the higher amount of \$500,000. You earn the difference of \$100,000 profit now.

The home is contracted for \$200,000.00 (50% below asking price) from the seller. You then sell the home at full-appraised (fair market) value for \$400,000 to the buyer. That’s a \$200,000 profit on handyman specials.

Here is the break down of what the deal looks like:

\$500,000 sales price that the cash buyer pays you at closing.

\$300,000 sales price to the seller using our company transaction.

If you did just 2 homes per month, it would net you \$240,000+ per month. Associates just like you are earning that and more every month worldwide.

While we can't make any guarantees that you will have the same success as other affiliate associates before you, we can say that you will have the same **opportunity**. Your efforts will determine the outcome. This does require work, effort, and fortitude—as does any business. If you work you can make a lot of money with this business. You have to pick up the phone yourself—we can't do it for you. You have to follow the steps and put what you learn into action. The EZ Real Estate Biz Real Estate Training Program has been phenomenal. Associates report that they get so many calls from buyers; they can't find time to call everyone back before getting more calls that are ready to buy. Work Nationwide and worldwide real business. EZ Real Estate Biz.

Reports of 50 to 100 calls per week are not unusual in this business

The www.EzRealEstateBiz.com Co. System has proven even more successful with those with no real estate background. I attribute that to the fact that they don't have to unlearn any old real estate habits. One of our top achievers was a security guard before coming aboard. Later he moved into a \$350,000 home on a Golf course. In Florida Another associate Ron Reading went from facing bankruptcy, to paying cash for his own home he lives in today. He even bought an office complex and car business with the cash he made from buying and selling homes using our EZ Real Estate Biz Rent to Own Flipping Techniques worldwide now.

Now get this...

We are the only company doing this type of cash real estate creation at our super low buying rates that can finance “D” type credit. We can work with “A” credit through “D” credit. There are some “similar” sounding companies marketing our old versions of this methods, but they are out of date and don’t generate the numbers that our latest version does globally today.

We are purposely keeping the number of people we teach this method to down to very select attendees of real people nationwide and worldwide.

You might ask, “But what about the mortgage companies that specialize in low credit buyers? Don’t they compete with what we’re doing?” the answer is, “NO!!” they are not even close to being able to do what we do. Our buyers answer and ad based on “Seller financing”, not “Mortgage Qualification”. Most of the time they have already been turned down by a mortgage company or they don’t want to go through the embarrassment of being denied. So the person uses the company resource worldwide now.

Our target buyers have decided to look for a seller who is offering owner financing. And this is why this system works so well. We’re finding buyers that have no choice but to look for alternative Mortgage Financing to day.

Here's what you get...

Discussion board post:

I did it!

I picked up my first check from the title company today for \$8,000. It was a Real estate flip we purchase.

Most of the deal was done by email, phone, and fax. It was fairly easy job to do. This works around the world.

The hardest part of the whole thing was just convincing myself that this was legal because it seems like you shouldn't be able to make this kind of money for the amount of work that I actually put into the deal! So on my first deal, I've already made the money I spent on training and still made a nice profit. If anyone is thinking about whether or not the real estate flip property house training is worth it, I would say it most definitely is! I wouldn't have been able to do this deal as a Senior Associate. I'd like to thank EZ Real Estate Biz for all of their help in walking me through this real estate deal that works around the world transactions.

It was very scary at first because it was something so different than anything I've ever done before. But they responded to all of my emails and calls and really gave me the confidence to make this happen fast now.

If you take a look at some of the success stories on the discussion board that were posted by Affiliate Associates, the numbers that they're talking about are amazing! I mean, you have people making more money and equity on ONE DEAL than I have ever made in six months to a year selling cars, working 40 plus hours a week. I think that made the decision pretty easy for me to fork over the deposit money that I got back.

Actually, I had to borrow my buddy's credit card to get there. I was actually in the middle of chapter 7 bankruptcy when I found EZ Real Estate Biz (I actually found EZ Real Estate Biz On Christmas Day-What a present!), so that should let you know that anyone can do this, regardless of credit or no money, no problem. Hope fully my success will encourage others to get out there and just try to buy real estate property in the area.

While I'm thinking people, although I haven't had direct contact with you, I would like to thank the following affiliate associates: Bryan Ellis, Robert Dobbs, Jonathan Rexford, Steve Boss, Amy Hutton, Ron Snider and anyone else who has posted a success story on this discussion board, These posts are what made me get out there and talk to people. It let me know there are people succeeding doing this real estate business, so I should be able to succeed as well in this entrepreneur business.

This is one of the best feelings I've ever had in my life and I hope to have this feeling a lot more in the very near future! Again, thanks to everyone at EZ Real Estate Biz And to all of the Associates out there who are working hard and providing us newer Associates with a blueprint of success. Good luck and good investing! Jamal Boss Affiliate Associates from around the world transactions.

Discussion Board Post:

This post is to tell you all that I finally hit my first deals! I did some deals about 10-15 years ago, and make a few bucks, and since then, I have been a computer programmer. I have been making 100k+ as a database programmer. But jobs had been getting harder and harder to find as the race for skills escalates worldwide. That's why I moved to own my own real estate business today.

I just closed four deals in the last two weeks, and cleared.....**are you sitting down...\$48,000!!!!!!!!!!!!**

The training really gave me the information and confidence with the company EZ Real Estate Biz. If you are unsure about the course, I urge you to go ahead, and make a comment to yourself to work the real estate business around the world to make a lot of money with our method. You can do it!

Chip, Super Affiliate Associate

Update:

Ron Snider bought and sold over 1 MILLION DOLLARS in real estate within 4 months of taking the affiliate associate training. Ron Snider mostly bought residential and commercial properties.

Barney Johnson and his wife, Shannon, earned \$48,699 on their first deal after leaving the affiliate associate training. Since then he tells us on the conference call that he is earning about \$84,000 per month. Great job, Barney and Shannon! The couple were buying commercial lease options deals.

Thought you would like to see the first email response from one of the attendees of the affiliate associate training. I received this email just two days after the affiliate associate training. It works FAST.....

John,

Wow, what a seminar! My head is still spinning from all of the information and techniques you presented. This really looks to open up the whole ball of wax. Just so you know (I signed with a new cash buyer money source) and just got a verbal on both of my current contract deal at 94% . I'm going over with them tomorrow, on the rest of my real estate contract deal of a life time.

What a difference a day makes. Thanks again for some powerful real estate lessons we needed!

Update:

(Comments for EZ Real Estate Company....These were two deals that turned down because of below 550 credit scores on one, and only approved the other file at 80%, but he needed 85% to make it work. Now he has gotten 95% approval on both deals. Together, these 2 transactions made him in excess of \$48,000.00 all cash at closing. In addition to that, he will not suffer the 5% discount imposed, making him even more profit. So start using real estate rent to own your own property.

Same associate makes over \$40,000 profit on a single closed "Rent to own flip houses" with no equity. than another \$24,000 the next week by putting someone else's dead deal back together from the same closing agent at the First American Title company. The house was a rent to own.

Hi EZ Real Estate Biz, since I was there (at the January affiliate associate training)...Also I just bought 4 properties @ 60 cents on the dollar. Since I will be using the New Source for these houses. Should make about \$110,000.00 not bad for a couple of weeks of work, thanks. M.G, Houston TX.

We invite serious people to call these real people with their permission after talking with us and visit with them yourself. Some of them are thanking us for what we provided them by accepting your calls to verify everything we are stating here.
